The Committee's deliberations must resume within 14 days when the additional evidence is available and witnesses are available. 4.1.3.2 Management Committee may refuse an application for registration and/or cancel or suspend the registration of a dog and/or any litter or part litter if the criteria for registration in the appropriate Register has not been complied with and/or if correctness of the registration is in doubt.

4.1.3.3 Registration - DNA. Management Committee may accept the results of DNA testing as conclusive evidence of parentage for the purposes of registration.

- 4.1.3.4 A member shall not be entitled to affect the initial registration of a dog unless that person is the breeder of such dog and is the registered owner of a Prefix and is a resident of the State.
- 4.1.3.5 The provisions of these Regulations do not apply to dogs being registered in the Associate Register. - 4.1.3.8.2 A dog shall be eligible for registration if the dog has been imported in dam and the sire and dam are eligible for registration as provided for in these Regulations.
- 4.1.3.8.3 A dog shall not be eligible for registration where the dog has a tail shortened by a procedure prohibited by Victorian State legislation, unless full documentation confirming that such shortening is in accordance with the legislation is provided with the application for registration. Such documentation must prove that:
- 4.1.3.8.3.1 The prohibited procedure was carried out before the commencement date of the prohibiting legislation; or
- 4.1.3.8.3.2 The prohibited procedure was carried out in a jurisdiction other than Victoria, in accordance with the law of that jurisdiction, and the dog was not, at any time on or before the procedure was carried out, resident in Victoria; or
- 4.1.3.8.3.3 The prohibited procedure was lawfully carried out by a Veterinary Surgeon as provided for by Victorian State legislation.
- 4.1.3.8.3.4 Shortened Tails Registration Process (Regulation 4.1.3.8.3 refers) (Amended 15/09/18)
- A Dogs Victoria member who wishes to register a dog with a docked, tipped or otherwise shortened tail here in after “docked” tail must establish to the satisfaction of the CE:
- That the dog was whelped in Victoria and that the tail was docked prior to 10 December 2007; OR
 - Where the dog was whelped other than in Victoria, that the tail was docked in accordance with the legislation of the country or state of birth current at the time of that dog’s whelping.
- A member of Dogs Victoria, who wishes to exhibit a dog with a shortened tail at a conformation show or participate in any other Dogs Victoria sanctioned event must:
1. Apply for a Shortened Tail Notification Card by completing and submitting to the CE, an application for a Shortened Tail Notification card, (available on the Dogs Victoria website or from the Dogs Victoria office upon request) together with the required fee;

2. Carry the Shortened Tail Identification card and present the card for inspection upon request made by an event official whilst the dog is present at that event or upon Dogs Victoria premises.

Failure to present the correct card will result in the dog being ineligible to compete in that show or event.

When exhibiting a dog that is registered interstate, the exhibitor must carry suitable evidence that the tail has been lawfully shortened, and present this for inspection upon request made by an event official whilst the dog is present at that event. This may consist of the Shortened Tail Identification Card, Statutory Declaration from the veterinarian carrying out the procedure, or other relevant evidence as listed below.

If doubt exists about whether a tail has been shortened, and no evidence can be provided by the exhibitor, this must be reported to the VCA Rep and noted on the Rep's report. On review by Dogs Victoria, if the dog is noted in the ANKC database as a natural bob then the parties involved will be notified. If no notation exists, a panel of three judges as nominated by Dogs Victoria will be convened to inspect the dog. The judges may call for DNA test or x-ray at the expense of the owner. The dog may continue to compete whilst this process is completed. If it is determined that the tail has been shortened, then the dog will be ineligible to compete in any show or event until the shortened tails registration process is completed. The dog will be ineligible to retain any awards received. For interstate dogs no challenge or best of breed certificates will be issued until the investigation is complete.

Natural bob tailed dogs' exhibitors are encouraged to either carry a copy of the registered pedigree with the natural bob noted, or apply for an Identification Card via this process by attaching a copy of their registered pedigree as evidence.

The following information must be accompanied with the application for registration of a dog with a shortened tail unless application is made to the Management Committee and approval given:

This policy is intended to assist trial organisers to minimize the risk of heat stress to humans and dogs participating in scent work trials in hot weather and to minimize the risk of injury or other harm because of inclement weather.

14.2.1 Trial Planning

When scheduling a trial for days when the temperature may be reasonably expected to exceed 30 degrees Celsius, consideration should be given to:

1. Scheduling an early start or a twilight trial;
2. Provision of shade in search areas for judges, stewards and competitors waiting to compete;
3. Provision of drinking water for judges, officials and volunteers;
4. Provision of water and paddling pools for use by dogs; and
5. Scheduling so that judges and officials can be rotated throughout the day.

14.2.2 Conduct of Trial in Hot Weather

1. All persons attending the trial are responsible for their own, and their dogs' safety and welfare. Each person should bring shade, shelter and wet weather equipment for themselves and their dogs;
2. Particular attention should be paid to dogs at high risk of heat stress, including brachycephalic breeds and high drive dogs;
3. Judges and stewards should be prepared to allow dogs running in multiple elements sufficient time between runs. Competitors should consider competing in less elements if the weather is hot;
4. The judge may order removal from competition of any dog suffering signs of heat stress as the dog is unfit to compete (Scent Work Rules 9.3 Welfare of Dogs);
5. Judging at a trial will be suspended if the temperature reaches 32 degrees Celsius as indicated by a suitable outdoor thermometer suspended in an open, shaded area no more than 10 metres from the search area;
6. Judging will resume only if the temperature drops and stays below 32 degrees Celsius for a period of 15 minutes;
7. Should the CFA fire danger rating as advised on the CFA website (www.cfa.vic.gov.au) for the district where the trial is to be held is Catastrophic for the day of the trial, then the trial shall be cancelled; and
8. Should the trial be cancelled, no refunds of entry fees will be made available. (Amended 15/08/24)

14.2.3 Conduct of Trial in Inclement Weather

1. Inclement weather shall include gale force winds, heavy rain, thunderstorms, lightning and flood;
2. Light to medium rain is not considered inclement weather;
3. Gale force winds are defined as 63kms per hour and over;
4. If inclement weather is predicted for the trial area, referral to the Elders Weather website (www.eldersweather.com.au) is recommended and a 'wait and see' approach may be adopted. The trial may proceed if the weather subsequently clears;
5. At the onset of any thunder and/or lightning, judging is to be suspended immediately, until it is clear, then the trial may proceed. Conditions should be reviewed every 15 minutes;
6. If, after 90 minutes of the suspension of judging, the inclement conditions still exist the trial shall be cancelled; and
7. Should the trial be cancelled, refunds of entry fees will be made available. (Amended 15/08/24)

Members shall at all times conduct themselves with behaviour as set out in the Dogs Victoria Policy Statement – Social Media Code of Conduct dated 15 July 2016 and updated in June 2025. (Amended 15/08/25) (15/07/16)

Dogs Victoria Policy Statement - Social Media Code of Conduct

Background

Social media has become an integral part of day-to-day communication for individuals as well as businesses.

Social media is defined as the social interaction among people in which they create, share or exchange information and ideas in virtual communities and networks.

Social media may include but is not limited to magazines, Internet forums, weblogs, social blogs, microblogging, wikis, social networks, podcasts, photographs or pictures, video, rating and social bookmarking. Technologies include blogging, picture-sharing, vlogs, wall-posting, music-sharing, crowdsourcing and voice over IP.

Its ability to capture community sentiment and shape opinions is driven by its dynamic and immediate nature.

What constitutes ethical behaviour can be somewhat ambiguous when engaging in social forums, however Dogs Victoria requires its members to uphold high ethical standards displaying respect, honesty and integrity. (Amended 15/08/25)

This Social Media Code of Conduct explains Dogs Victoria's expectations of members when using social media. Members must: (Amended 15/08/25)

- * Abide by Dogs Victoria Rules and Regulations and the law (Amended 15/08/25)
- * Be reasonable and respectful – not post malicious, misleading or unfair content in relation to Dogs Victoria or its affiliates, Dogs Victoria staff, Dogs Victoria members or members of other Dogs Australia affiliated bodies or their dogs (Amended 15/08/25)
- * Be accurate – any content posted as fact including about yourself and your dogs, should be able to be substantiated and not be misleading (Amended 15/08/25)
- * Act in manner that is consistent with good community expectations

The same values that apply in the real world also apply in the virtual world and in social media exchanges.

Despite the seemingly unregulated nature of social media, the law is applicable to online content. Postings online (and similarly in email or text messages) are subject to the law in areas such as defamation, racial discrimination, intimidation and bullying.

Breach of the Social Media Code of Conduct

Dogs Victoria continually monitors activity in relation to the organisation and its members.

Dogs Victoria takes compliance with this policy seriously. Where members believe that behaviour is in breach of our Rules, Regulations or codes and is reported, the disciplinary process may be initiated by Dogs Victoria. Where proven, either formal warnings or other penalties may apply or if it is of a serious nature the offending members may be considered liable under the law.

Consultation or advice

This policy has been developed to provide outline requirements for Dogs Victoria members. (Amended 15/08/25)

Any members who are unsure of their rights, liabilities or actions online and seek clarification should contact the Dogs Victoria Compliance Officer. (Amended 15/08/25)

20.7 CODE OF CONDUCT BY DOGS VICTORIA MEMBERS AT DOGS VICTORIA EVENTS

Dogs Victoria expects that all members and exhibitors will conduct themselves in a responsible manner when attending Dogs Victoria activities. Participants must also ensure that their dogs are properly cared for at all times during events and do not become a nuisance to others.

Members will always act in a way which will make events friendly and welcoming, creating a safe environment for the enjoyment of all. They will conduct themselves by displaying good manners, respecting other participants, officials and judges.

The following is the expectation of Dogs Victoria of all attending an event authorised by it.

- You will display a commitment to the values of fair play, honesty, courtesy, spirited competition whilst winning and losing with grace equally.
- You will welcome, encourage and support newcomers to the sport.
- You will act so that the experience of others attending a Dogs Victoria event may be enriched.
- You will reject any opportunity to take personal advantage of positions offered or bestowed on you.
- You will always consider paramount, the welfare of the dogs.
- You will refuse to embarrass the sport or Dogs Victoria whilst taking part.

Behaviour not tolerated

- Abusive or aggressive behaviour towards anyone attending the event whether it be the judge, event officials or management or participants.
- Harassment which may be defined as causing alarm, distress or anxiety, physical violence, threats, offensive language or verbal abuse.
- Refusal to accept a judge's decision by comment on the decision whilst still in the ring or near precincts or refusal to continue to participate whilst eligible to do so.

Reporting of poor or bad behaviour will be encouraged. It may then be speedily tracked through the disciplinary process by which Dogs Victoria demonstrates its strong commitment to a high standard of behaviour at all times by its members. (15/07/16)

20.8 CODE OF PRACTICE FOR BREEDING ANIMAL HEALTH MANAGEMENT (Amended 15/08/18)

- 20.8.1 All breeding dogs must have a general health check by a veterinary practitioner at least once per year, or more frequently as directed by a veterinary practitioner.
- 20.8.2 All dogs must have a general health check by a veterinary practitioner prior to their first mating. Proof of the health check may be a Veterinary practitioner's certificate, stating that at the time of examination, the dog had no impediments to breeding. This may be undertaken in conjunction with the health check in 20.8.1.
- 20.8.3 All bitches must have a post-partum health check by a veterinary practitioner.
- 20.8.4 A breeder shall have a written agreement with one or more veterinary practitioners which describes arrangements for:
- the use of the veterinary practitioner's facilities for the treatment of animals;
 - the provision of isolation housing if the breeder does not have a separate isolation housing; and the supervision of animals in isolation who remain in the care of the breeder;
 - advice relating to the health management plan for the breeder if Dog's Victoria's Model Health Management Plan for Breeders is not used;
 - providing vaccination certificates for puppies being sold from the breeder;
 - providing veterinary assistance for the breeder and able to provide treatment and/or services to the breeder within six hours of notification that veterinary attention is required; and
 - 24 hour contact or treatment or provision of services through an alternative 24 hour or emergency practice.
- 20.8.5 A breeder shall either:
- 20.8.5.1 adopt Dogs Victoria's Model Health Management Plan for Breeders, or
- 20.8.5.2 alternatively develop their own written health management plan that has been formulated and is reviewed annually in consultation with a veterinary practitioner, and meets the requirements for Health Management Plans which are contained within Section 3(5) of the Victorian Code of Practice for the Operation of Breeding and Rearing Businesses (2014)

DOGS VICTORIA MODEL HEALTH MANAGEMENT PLAN

The Model Health Management Plan will be a separate document, published as a template for members to complete and is referred to by our Code of Practice in section 20.8.5. It is therefore expected that once complete, members will follow the content of the plan, or develop their own which meets the requirements in 20.8.5.1. Members will be required to produce their plan on request of Dogs Victoria and compliance may be inspected by Dogs Victoria Field Officers. The Model Health Management Plan will be developed by a working party including veterinary practitioner[s].

The Model Health Management Plan is expected to include protocols for:

- grooming requirements
- exercise, environmental enrichment and socialisation programs
- behavioural and welfare assessment of dogs
- assessment programs for the health and welfare of dogs being reared for sale or as breeding dogs
- assessment for admission of new breeding dogs
- processes for determining the suitability of breeding dogs to continue breeding
- processes for long term management, desexing and/or assessing suitability for rehoming of retired breeding dogs
- whelping protocols

- health assessment for puppies
- vaccination and/or titre testing protocols, internal and external parasite prevention programs consistent with Dogs Vic's position on these (below)
- response to a general outbreak of disease
- protocols for quarantine and movement of dogs, including new animals introduced
- management of isolation facilities (where isolation facilities are constructed at the breeder's premises)
- consideration of an appropriate response to foreseeable emergencies for both humans and dogs, including evacuation procedures
- approved methods of euthanasia for emergency situations consistent with Dogs Vic's position on euthanasia (below)

Position on vaccinations, titre testing, parasite and pest control

Vaccination programs and/or titre testing protocols within the Health Management Plan for all dogs and puppies shall address the Core Vaccines as recommended by the AVA (Canine Distemper; Infectious Canine Hepatitis; Canine Parvovirus) at a frequency determined by the breeder following consideration of the policies of the AVA and WSAVA, or consistent with findings of published and peer reviewed research. Guidance on this will be provided by Dogs Vic in the Model Plan. Preventative treatment is also recommended for intestinal worms and Heartworm.

Non-core vaccines (Parainfluenza virus, Bordetella bronchiseptica and Leptospira interrogans) are only required by dogs whose geographic location, local environment or lifestyle places them at risk of contracting specific infections.

Every effort should be made to control pests such as fleas and paralysis tick. Preventative treatment for pests should be considered based on risk, geographical location and health risk factors.

Prevention and treatment products should be used in accordance with the manufacturer's or alternatively the AVA, or breeder's vet's recommendations. Where no prevention or treatment is used in an instance where the Health Management Plan had originally indicated it would be given, a veterinary certificate to that effect containing the veterinary advice given and the breeder's rationale for the different action must be available.

First treatment for worms should not be given before 14 days of age and first vaccination not before 6 weeks of age except on veterinary recommendation. Other preventatives should only be administered to puppies under 8 weeks on veterinary recommendation.

Vaccination certificates, including dates of next vaccine, details of the vaccine required, and a record of who administered the vaccine, must be signed by a veterinary practitioner at each vaccination. Alternatively, where titre testing is used in lieu, a copy of the results and recommended date for the next test should be kept on file.

Position on euthanasia

Where euthanasia is necessary, it must be carried out by a veterinary practitioner, except in emergency situations. In the case of emergency, a breeder may only carry out euthanasia under the direction of a veterinary practitioner, using a humane method. In such a situation, the veterinary practitioner must provide the breeder with a certificate stating that the veterinarian gave permission for the euthanasia including time, reason and approved form of euthanasia.

Euthanasia must be performed in an area that is separate from any dog housing areas, out of view of any other animals.

20.9 CODE OF PRACTICE FOR VOLUNTEERS (15/08/25)

Dogs Victoria recognises that the work of its many volunteers is invaluable. This statement sets out its commitment to those who volunteer in a wide range of roles, including:

 - leaders are expected to value diversity and equity, and reflect this in their actions
 - leaders will be encouraged to circulate opportunities for volunteers as vacancies occur and as part of succession planning
 - all members (irrespective of background or ability) will be encouraged and welcome to come forward to volunteer rather than wait to be approached
2. We will provide our volunteers with an induction program that enables them to clearly and fully understand their roles, obligations and opportunities, as well as Dogs Victoria's duties and commitment to them
 - leaders will ensure that their team members are trained to understand their responsibilities in relation to child safety and to support their engagement with children
 - leaders will provide newcomers with job specific induction where the nature of the role requires it
3. We will actively support our volunteers and identify opportunities for development, recognising that improvement is critical to a prosperous future
 - leaders will maintain regular contact with team members to provide feedback and to be responsive to ideas, concerns and development needs
4. We will at all times strive to ensure the safety and well-being of our volunteers and work in partnership with them to identify and eliminate any hazards and manage risks.
5. We will build on our current volunteer recognition program, which includes the volunteer stories published in the Dogs Victoria Magazine, the annual thank you function and personal message of recognition from the Chief Executive.
6. We will treat our volunteers with respect, sensitivity and consideration at all times and in all situations, recognising that they give freely of their time but have other life commitments
 - we will work to further develop our culture around reporting so that people are increasingly comfortable to raise concerns
 - we will ensure that fair and transparent procedures are in place for changing the role or nature of the involvement of our volunteers and for ending the involvement of a volunteer, for whatever reason
 - volunteer performance or misconduct issues will be promptly identified, recorded and addressed in line with principles of natural justice and our Constitution Rules, Regulations and Codes of Practice and Ethics

We will always remember that the words 'thank you' go a long way
